

## **AMENDMENTS TO THE CLAIMS**

This listing of claims will replace all prior versions and listings of claims in the application.

### **Listing of Claims**

1-13. (Canceled).

14. (Currently amended) A mop cover for a mopping device, comprising:  
a first backing textile having longitudinal edges and transversal edges and having a mopping side, which is active in cleaning, and a top side, which is used to attach the mop cover to a mop holder of a mopping device, wherein ~~insertion pockets, holding strips or other~~ attachment means for the mop holder are provided on the top side of the first backing textile; and a second backing textile abutting the first backing textile laterally at one of the longitudinal edges of the first backing textile, said second backing textile having a with a mopping side and a top side, ~~but without~~ free of attachment means for a mop holder, ~~provided laterally next to the first backing textile at one of its longitudinal edges,~~ ~~wherein the first and second backing textiles are separate parts, but fixedly connected to each other, or are formed as a unitary enlarged backing textile.~~

15. (Previously presented) Mop cover according to claim 14, wherein a further active layer forming a third mopping side is positioned on the top side of the second backing textile.

16. (Currently amended) Mop cover according to claim 14, wherein the two mopping sides of the first and second backing textiles are hydraulically separated by a liquid-impermeable ~~or otherwise not liquid transporting~~, separating section.

17. (Previously presented) Mop cover according to claim 16, wherein the separating section is a separating strip between the first and second backing textiles.

18. (Previously presented) Mop cover according to claim 16, wherein the separating section is of the same material as the first and second backing textiles and is unitarily formed therewith.
19. (Previously presented) Mop cover according to claim 16, wherein the separating section is a separate part, but connected to the first and second backing textiles and is from a different material than the material of the first and second backing textiles.
20. (Previously presented) Mop cover according to claim 19, wherein the separating section is made from a net-like material.
21. (Currently amended) Mop cover according to claim 15, wherein ~~the~~ a separating section is provided as a liquid-impermeable separating layer between the further active layer and the second backing textile.
22. (Currently amended) Mop cover according to claim 16, wherein the separating section is ~~made from or specifically constructed as a section of~~ comprises an abrasive material.
23. (Canceled).
24. (Previously presented) Mop cover according to claim 14, wherein the first and second backing textiles are knitted fabric.
25. (Previously presented) Mop cover according to claim 24, wherein the edges of the knitted fabric are not hemmed.
26. (Previously presented) Mop cover according to claim 14, wherein the edges of the first and second backing textiles comprise trimming.
27. (Previously presented) Mop cover according to claim 26, wherein the trimming is a loop-forming material.
28. (Previously presented) Mop cover according to claim 14, wherein the first and second backing textiles are microfiber.

29. (Previously presented) Mop cover according to claim 14, wherein the first and second backing textiles are polyester.
30. (Previously presented) Mop cover according to claim 14, further comprising at least one gliding assistance strip located on the mopping side of either the first backing textile or the second backing textile.
31. (Previously presented) Mop cover according to claim 30, wherein the gliding assistance strip is polyester felt.
32. (New) Mop cover according to claim 14, wherein the first and second backing textiles are separate parts fixedly connected.
33. (New) Mop cover according to claim 14, wherein the first and second backing textiles comprise a unitary enlarged backing textile.
